

ADVENTURE KOMODO

Explore the Indonesian archipelago
in five-star luxury

No Boundaries

Go beyond the beaches and tourist havens and discover the spectacular beauty of Indonesia's marine environment in stylish comfort aboard Adventure Komodo.

Normally inaccessible to all but the most dedicated adventurers, this beautiful ocean playground consists of over 18,000 islands and spans more than 5,000 kilometres, roughly one eighth of the world's circumference, with unrivalled surf breaks, spectacular dive locations and great swathes of pristine marine environment.

Now, with the power, spacious living areas and ultra-modern facilities of a twin hull 75 foot catamaran at your disposal, these hard to reach areas are yours to enjoy at leisure. Cruising in comfort at speeds of up to 15 knots overnight, the days are free to explore and play in unspoiled areas beyond the reach of most visitors to the region.

With a top speed of 20 knots and a crew of six, Adventure Komodo has a range of more than 1,500 nautical miles from its base in Bali and can remain at sea for up to two weeks. Built to the highest safety standards and commissioned in 2003, Adventure Komodo is a spacious, fully air-conditioned vessel designed specifically for blue water cruising in style and luxury.

And with comfortable twin and double cabins for up to 12 guests, fantastic cuisine prepared by a trained Cordon Bleu chef, a full audio-visual entertainment system and the facilities you would expect from a five star dive resort, the opportunities for exploring Indonesia's ocean habitat are endless.

INDONESIA

Uncharted Adventure

Cruise to Padang in western Sumatra to surf the mighty Mentawais or to Sorong in Papua in search of the elusive Birds of Paradise. See the Komodo Dragon in its natural habitat or dive the unspoiled reefs of Flores, Adventure Komodo brings all of Indonesia's spectacular archipelago within your reach.

Diving for fun or logging up to five underwater photo shoots a day, the Adventure Komodo has the equipment and facilities to satisfy even the most committed dive professionals.

Surfing is a breeze due to the long range and advanced navigation equipment aboard the Adventure Komodo and gives you the choice of visiting Indonesia's many spectacular offshore breaks or discovering your own secret spots.

Two 4.5 meter tenders with 40hp outboard engines provide support for multiple dive sites and the vessel holds sufficient tanks and weight belts for up to 20 divers. Twin Shifflauer dive compressors offer a choice of Nitrox or standard air for maximum flexibility.
